

# Surveil Together

The Surveil Together partner program underpins our Partner Channel Model, providing partners everything they need to succeed.

## Key Benefits

Access to a personalized partner hub

Sales & Marketing resources and support.

Technical support from our Surveil experts.

Joint marketing activities.

Surveil Academy learning modules.

Start on the right foot with a Surveil Champion's help.

## What to Expect

**When we work together, we all succeed. That's why we called our partner program 'Surveil Together'.**

As a Surveil partner, you'll have access to a personalized partner hub, populated with collateral, advice, and insider information to help supercharge your sales and marketing activities.

Meanwhile, our technical team will be on hand to support onboarding, maintenance, and troubleshooting on the platform, and will be continuously working on improvements and new developments.

You'll also have the opportunity to enroll your sales team in the Surveil Academy, where they'll learn about the platform, as well as how to sell with Surveil.

Finally, no partner need start out on their own. Our Surveil Sales Champion initiative places a dedicated Champion in your sales team to help shape and guide the first three months of sales activity – from preparation and propositions, to Health Check running and reporting.

**Interested in becoming a Surveil partner? Get in touch with our team to discuss.**
